

SEMINAR

Obedience & Behaviour Problem-Solving

Instructed by

Dave Walker

BALANCED TRAINING FOR THE REAL WORLD
OVER 30 YEARS
SPCA/HUMANE SOCIETY APPROVED
“MAKING LIFE EASIER WITH YOUR PET”

Dave Walker of Command Response Dogs has been working with families and their pets for over 30 years. His “real world” training philosophy has been able to help eliminate basic as well as complex behavioural issues quickly and permanently. He is known throughout North America for his skills of quickly determining a dog’s personality and selecting the training technique that is necessary for that individual dog. As a Professional Trainer, Dave knows not to use only one training technique on all dogs. His years of experience has shown him that every dog is different and must be trained as such.

Seminar participants will come away with not only a general knowledge of how dogs think...but how their particular pet thinks. Dave will share his extensive experience and skills with the participants in helping them solve such common behaviour problems such as jumping up, house-training, excessive barking, nipping/mouthing, destructive chewing, etc. He will also cover more complex behaviours such as dog/human aggression, food/object guarding, separation anxiety and fear/confidence issues.

SEMINAR (2.5 hrs)
(Humans Only)

(Rens Pet Depot- Aberfoyle Store)
-Tuesday Evening 7-9:30pm
-Seminar Handout included.
Seminar (Once every 6 weeks)
